Comprehension Check Emperor Penguins

Read the passage and answer the questions below.

Emperor Penguins live in Antarctica. They are the world's largest and tallest penguin. The Emperor Penguin is a bird. However, instead of wings it has flippers and cannot fly. Emperor Penguins are good at swimming and diving. They eat crustaceans, krill and small fish. Their feathers and a thick layer of fat keeps them warm. They also keep warm by huddling in groups called colonies.

Comprehension Check Emperor Penguins Answer Sheet

Read the passage and answer the questions below.

Emperor Penguins live in Antarctica. They are the world's largest and tallest penguin. The Emperor Penguin is a bird. However, instead of wings it has flippers and cannot fly. Emperor Penguins are good at swimming and diving. They eat crustaceans, krill and small fish. Their feathers and a thick layer of fat keeps them warm. They also keep warm by huddling in groups called colonies.

What keeps an Emperor Penguin warm? (Pick two)

- ☐ Africa
- ☐ Antarctica
- ☒ the Arctic
- ☐ Asia

What keeps an Emperor Penguin warm? (Pick two)
